Following publication of the original article [1], the authors have reported that there is an error in Table 2 - Distribution of users concerning satisfaction with oral health services: the categories 'No' and 'Yes' should swap places.

Hence:

'Yes' would be in the same line with the values  $n = 5.410$  and  $\% = 14.52$ ;

'No' would be in the same line with the values  $n = 31.852$  and  $\% = 85.48$ .
